Wing And The Internet Of Things

JANUARY 12, 2017 MARTIN GILES

Two of our partners were interviewed recently about their views on the Internet of Things and its likely evolution. Gaurav Garg appeared on Stacey Higginbotham's IoT Podcast:

The interview with Gaurav begins just after the 33 minute mark.

Martin Giles was interviewed by Ken Briodagh on his IoT Time podcast, which can be accessed here (http://blog.iotevolutionworld.com/2016/11/30/iot-time-podcast-ep-65-wing.html) .

Both interviews make reference to Wing's IoT Startup State Of The Union 2016 study, which we wrote about in this (http://wing.vc/blog/iot-startup-state-of-the-union-2016) post.
